## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 11-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Kratzer et al. (WO 01/47635, its US family US 6,953,829 is referred to hereinafter for convenience).

Kratzer's Examples 1, 4, 7 and 10 demonstrate a propylene polymerization process in the presence of a catalyst prepared by (i) treating SiO<sub>2</sub> support (A) with N,N-dimethylbenzylamine (F), then (ii) contacting the treated support with the contacting product of trimethyl aluminum (C) and pentafluoroboronic acid (B) to provide a white support material, (iii) contact the white support material with dimethylsilanediylbis(2-methyl-4-phenylindenyl)dimethylzirconium (D) and then trimethylaluminum (E) to provide a free-flowing catalyst powder; and (iv) conducting propylene polymerization in the presence of the catalyst and triisobutylaluminum (G) (the scavenger). Kratzer's teaching anticipates the instant claims.
